

HUMAN ECOLOGY
PROJECT
THE PERSONAL IS PLANETARY

DEAR FRIENDS

Exciting News From The Human Ecology Project

The Human Ecology Project is moving forward to assist in the creation of a healthy society and planet for human and non-human life. We would kindly ask you to take a few minutes out of your busy day and **play the video below**. We all need to do what we can to create a healthy and peaceful world for future generations.

Moving Forward

The greatest gift we can give is a better world for the young and those unborn.

Will we leave a legacy of a planet stripped of life or an environment that is vital and life-sustaining? The decision is ours.

The Personal is Planetary

We can take actions daily that benefit the welfare of both human and non-human life. Some of these decisions can make a profound impact on planetary sustainability.

Food for Thought

Our present animal-based food system is the primary driver of environmental destruction, non-communicable diseases in humans, and the needless killing of

billions of animals. Food is central.

Education is the Answer

Our pilot cooking and nutrition programmes for the young, and video/workbook workshop programmes for older students have been enthusiastically received. We are ready to expand our services.

”

Dear Marlene and Bill,

Thank you so much for coming to The Oxford Academy last week and bringing all your enthusiasm for veganism with you, it certainly gave the children something to think about, they are really not used to tasting different foods, so I must admit I was pleased with the way they worked. Thank you for giving up your time.

Judith Brown

The Oxford Academy

Dear Marlene,

It was lovely meeting you both! Thank you for such a wonderful session for our students. They really enjoyed it, and we would love to look at some other sessions for our coming school year. I'm now very much looking forward to the summer holidays and the chance to use some of your recipes!

Kate McCabe

Assistant Head Teacher - Greyfriars Catholic School

HELP US HELP THEM

We have been given a matching grant. If we can raise **\$20,000** in the next six months, we will receive **\$40,000** to impact the lives of more students and their parents.

It is a generous offer, but we need your help.

We thank you in anticipation.
In good health

Bill and Marlene X

GET INVOLVED

Be a Changemaker

Our campaign goal and the link to our crowdfunding page are live. It is very easy to donate. Trusting ourselves, our intentions, and the goodwill of others to help us reach our target drives us both daily.

Donate now!

Help us grow by making a gift today.

Your gift to the Human Ecology Project will support

our commitment to building a better world.
